

Presenting Our Executive Boardroom Retreat Villa

We have custom designed this luxury executive retreat villa, outfitted with all the amenities and technology needed to conduct a productive and collaborative meeting, offering the beautiful seclusion, excellent dining and service of our award-winning winery destination.

Located on the ground level, the Boardroom meeting room itself can accommodate meetings up to 18 guests situated around its cherry-wood table, with room for additional guests seated around the room's perimeter. The Boardroom Villa is outfitted with the latest state-of-the-art technology, including AT&T UVerse, WiFi internet access, (24MB download speed,) video conferencing and Smart BOARD Technology ~ an interactive 86" flat-panel interactive "whiteboard" that is controlled by either tablet, laptop or touch and used to access computer applications such as PowerPoint or Excel, as well as to access the internet.

The Boardroom meeting space is furnished with plush, executive rolling chairs, and the table itself is equipped with outlets for electrical and internet access. The fully-equipped, enclosed kitchen has a concealed counter-top bar accessible from the meeting space as well as a side staff entrance for discreet service. A designated concierge services the meetings and any activities planned on property. A living area on the first floor serves as a break-out room or for post-meeting gatherings and features a flat-screen television, a fireplace and French doors that open to a covered porch. The second level is a spacious CEO Master Suite, with a king-sized bed, master bath with a marble over-sized shower, closet, flat-screen television, sitting area and writing desk.

Chaumette Winery's culinary program, directed by Executive Chef Adam Lambay, services all corporate retreats, and there are multiple small and large venues on property for break-out meetings and meals. All meals offered are aligned with Chef's emphasis on locally-sourced ingredients and his Contemporary American-style cuisine. Chaumette offers numerous amenities on property, including team building activities that emphasize grape-growing, winemaking and culinary concepts, such as a cooking school, (opening in July.) Additional amenities for corporate guests include spa services and access to the pool and fitness center at The Spa at Chaumette as well as fishing on the property's many lakes, hiking on designated trails on- and off-property and orienteering.
